Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 04 November 2003.
- 2a) ☐ This action is FINAL. 2b) ☐ This action is non-final.

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1, 3, 6, 17-18, drawn to an apparatus for manufacturing a resin-impregnated cured sheet. Independent claim 1 of this group requires "*a pair of heating and pressuring rolls which are arranged so as to nip the uncured fiber sheet through the endless belt.*" (**A**).
 - II. Claims 2, 3-4, 6, 17-18, drawn to an apparatus for manufacturing a resin-impregnated cured sheet. Independent claim 2 of this group requires "*a heating liquid pressure device which is arranged so as to nip the uncured fiber sheet through the endless belt*" (**B**).
2. Claims 7-16 are withdrawn from consideration as being drawn to non-elected claims. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).
3. The inventions are distinct, each from the other because of the following reasons: Groups I and II are directed to distinct methods. The patentability in the independent claims of each group is based on divergent combination of method steps. As noted above, independent claim 1 requires patentable limitation **A**, but does not require patentable limitation **B** as recited in independent claim 2; and vice versa. The differences between these groups are critical and significant to the extent that the inventions constitute prima facie patentably distinct combinations, absent evidence to the contrary. This can readily and clearly be

demonstrated by a side-by-side comparison of the independent claims, noted earlier. Similarities of the independent claims are merely superficial, since certain significant limitations in one of the groups find no counterpart in the other group(s) and vice versa.

Presently, no claim is generic. **Rejoinder of these two groups of method will be considered, upon indication of allowable subject matter, depending on the basis thereof.**

4. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, and vice versa, restriction for examination purposes as indicated is proper.
5. Several telephone calls were made to Mr. Kendrew Colton (the last call was made on 12-11-03) to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Sam Chuan C. Yao whose telephone number is (703) 308-4788. The examiner can normally be reached on Monday-Friday with second Friday off.
